# CONCRESSIONAL.

Special Dispatch to The Bee. WASHINGTON, May 18, 4 p. m. The house bill to establish an assay at nine o'clock last night they were office in St. Louis, was reported and

The pension appropriation bill was reported back. It contains an additional clause appropriating \$6,000 to that Courtney was only shamming and enable the secretary of the treas- that it was a trick invented to bear ury to send steamers to the relief of Courtney stock, but careful inquiry officers and crews of whalers impris- ine and severe. The public generally oned in the Arctic ocean.

The bill was considered in the house as in committee of the whole. It was from his sanstroke and is no longer agreed that when the bill was disposed of a separate measure would be reported, construing the act placing col- Riley would yet have to make up ored persons who enlisted in the army the race. Courtney himself repudiates this idea. "I shall certainly on the same footing as other soldiers as to bounty and pension, so as to extend its provisions to the heirs of such he said. These are outward indicasoldiers in their claims for military service. The bill was passed.

McLean said he found a published letter addressed to him and to Ellis, as members of the committee on Pacific railroads, by J. A. George, charging certain bribery and corruption Texas Pacific bill. That letter had gone to the newspapers without the knowledge of the committee. The letter will be submitted to the committee next meeting.

The senate amendments to the postoffice appropriation bills were referred to the appropriation committee. The house went into committee of the whole on the bill making an appropriation for the support of the agri-cu tural department The bill appro-

less than the est mate. Mr. Aiken speke of the importance of this department. In the course of his remarks he s'ated that tariff legislation of the country discriminated against agricultural interests. Mr. Keiley denied this, and insisted that the tariff bill was of especial ad-

vantage to the farmer. The bill was then considered by BEE: Mr. Young, of Tennessee, offered an amendment, which was adopted, providing that the amount appropria-ted be at the discretion of the commis-

Mr. Gillette offered an amendment apprepriating \$50,000, to set up apparatus for the manufacturing of sugar at sgricultural fairs to demonstrate the Postmaster appointed — Ol practicability of making sugar of corn stalks. He said it had been proven that a sufficient amount of sugar could be extracted from corn stalks after the corn had been harvested to realize as much money to the acre as the corn itself. EVENING SESSION. The session of house last night was for the purpose of considering the bill to organize a court on pensions.

Mr. Farr opposed the whole scheme because he did not believe it could be of any avail.

In the course of discussion Mr.

Warner said the pension law at present constituted a demand for an an-

nual appropriation of \$38,000,000, besides this applications were coming in at the rate of \$8,000 to \$10,000 month. If all appropriations now on file were allowed, there would be required an immediate appropriation of \$212,000,000for[a-rears and pensions. The roll would thereafter call for an

annual appropriation of \$1,000,000.

Nearly the whole evening was taken ip with a discussion of second section f the bill which defined the class of cases that might come before the court created by the bill. It was insisted on one hand and denied on the other that the biil gave such origins jurisdiction that cases that had never peen before the commissioner of pen sions might be brought before the court and that it therefore opened the day to allow to allow the Occidental door to every man who had served in

and Oriental railway and steamship bility or not. The section was amended company to construct a railread and to limit jurisdiction to appealed telegraph line westward from Green cases. Without disposing of the bill SENATE. Bayard failed to get his bill regulat-

Senator Saulsbury spoke at some length on the Kellogg case, favoring Senator Butler will be the next speaker, and will oppose the attempt o unseat Kellogg. Senator Butler took the floor on the

Kellogg-Spofford resolution but allowed the report to be laid aside in order to consider bills on the calendar. The senate agreed to meet at eleven o'clock daily on and after Thursday. Adjourned

GREAT UNACCOUNTABLES.

Rumors That Courtney, Who is Reported Sick, is Shamming.

That Hanlan May Beat Him In the Great Race To-Day.

Special dispatch to The Bee.

WASHINGTON, May 19-1 a. From outward indications it is safe to predict that Courtney is doomed to Hanlan. All signs indicate his defeat. All prospect predict it and bet ting is nearly three to one against him with few takers at these odds. The change in the general feeling as to the probability of the race has been sudden and decided. Hanlan has been the favorite from the start, but up to yesterday it has been generally conseded that the result was doubtful. Two events have contributed to bring about a change, the first is the arrival of a large number of Canadians with

pockets full of money and anxious to bet. They have frightened Courtney's betters and bulled Hanlan stock until offering 100 to 35 on their favorite, and finding occasional takers. An impor. referred to the committee of the tant eventalso was another mishap to Couriney, He took a hard pull yesterday morning and was afterwards seized with viclent pains which lasted him all day. A few held to the belief shows that the headache is both genuis inclined to believe that is an evi-

dence that Courtney has not recovered able to pull a hard race. News of his indisposition has revived the prediction that he would not row and that put in an appearance if I live, and shall row as fast and as long as I can," tions and if there is not some trickery behind it all it seems mere than proba ble that Hanlan must win. He is in prime condition which Courtney certainly is not. The race will not be

started until very late in the afternoon in order that Courtney may not be affected by the sun. If, therefore, his headache should prove to be unimupon congress which had passed the portant and there should be no return iry. of it, or no other accident should occur during the race it will not be a walkover for Hanlan. There has been some talk that Hanlan intended to sell out the race and let Courtney win, but there is no evidence of such intentions and Hanlan denounced the re-

post as a lie. The race will be witnessed by an immense concourse of spectators, probably larger than has ever before gathered at a boat race in this counpriates \$213,000. which is \$130,000 try. Therace isset for 4:30 o'clock, but it will probably not be started before 5:30 or 6 p. m.

GLADSTONE AND RUSSIA. Dignatch to The Rec. London, May 19-1 a. m.-The effect of the accession of the Gladstone ministry to power already begins to be apparent. Abroad it is well underood that Gladstone is such an adnirer of Russia and is so thoroughly on her side in every way that he will not permit any obstacle to be thrown in her path by England, consequently Russia is now moving forward more rapidly than formerly in her schemes of conquest in the far East. It is reported that she is about to send an army corps of 24,000 men to make a

demonstration on the Chinese frontier and thus, take the first step in the New York Produce. campaign, which, however protracted it may be, has for its ultimate porpose the pushing of the Russian conquest to the China ses. Lepire, who has held this position since March 4th, 1879, is officially gazetted, also the appointment of M. Falliers to be secretary of the ministry of the interior, a post held by M. Lepire for two years before his appointment as minister of commerce and agriculture. The political significance of these changes is not thoroughly understood, but they seem to indicate an effort of the gov-

ernment to bring skill in the administration of officers as both of the new officers possess these gratifications. SERIOUS FRENCH STRIKE. pecial Dispatch to The Bec. Paris, May 19-1 a. m.-A large number of the strikers at Roubaix, who had returned to work, have again

The company is understood to have come to this conclusion partly on account of the continued depression in the price of iron in the United States which has already touched figures to make the exportation of iron from England unprofitable, and partly on account of the unsettled condition of labor here, which may at any time bring about a strike. > The Illinois Convention Dispatch to The Ree.

SPRINGTELD, Ill., May 18-4 p. m.

There is every indication of a lively time in the convention to-morrow. If the Grant men have a majority they threaten to select, by a committee of the convention, forty two delegates, and to instruct them to vote as a unit for Grant. It looks this aftermoon as the regular delegates from Cook county will stand a tair show of admission, though there is no telling what the bulldozing of Grantites may accomplish between now and noon to-morrow. Should the machinists insist upon the rejection of the whole or part of the regular delegation, there will be trouble and perhaps two conventions. Washburne and Blaine men throughout the state will stand by the regulars from Cook to the extent, it is claimed, of withdrawing with them if the outrage of ousting them. is perpetrated. It is proposed by some to ask the Grant managers this afternoon whether they will consent to admit the regulars; and if not to start a sec ond convention of Blaine and Wash

ultaneously with the opening of the Grantite convention in the house. The outlook for a peaceful solution of the Cook county difficulty is not at majority. The central committee, of which the Grantites have a majority, at its meeting this evening will select a temporary chairman. Some violent Grantites propose to seathim by physical force, if necessary. The committee on credentials is evenly divided out-
